MANAGETOWIN® Integrated With Autotask®

Novato, California (March 24, 2010) – MANAGETOWIN announced it is now offering an integration of its talent management software into Autotask, the leading hosted business management software designed exclusively for technology solution providers.

“Autotask is the ‘business operating system’ that technology solution providers use to sell, implement, manage, and bill their IT products and services,” said Mark Crall, Executive Director of Business Development for Autotask. “Now, with MANAGETOWIN integrated they can also use the data captured by Autotask to improve the way they manage and motivate their employees to achieve meaningful results.

“We are excited to partner with Autotask Corporation to help their customers to run their IT businesses better,” added David Russell, CEO of MANAGETOWIN. “Through the MANAGETOWIN integration Autotask customers will be able to focus on motivating employee performance by setting and tracking automated goals, writing reviews in half the time, automating career paths and encouraging more pay-for-performance compensation. This is a beautiful partnership because our product roadmap really compliments Autotask, so the benefits of this integration will continue to grow over time.”

The MANAGETOWIN-Autotask integration is on sale during March and April 2010. It is only \$99 versus the standard pricing of \$495 (80% discount). Subscribers need to include the Autotask integration when ordering their MANAGETOWIN site and then use coupon code “Autotask1” in the shopping cart to receive the discount.

MANAGEtoWIN is offering webinars to demonstrate the integration of their software with Autotask. The next scheduled event is set for [Wednesday March 24](#) at 9:00-9:30 a.m. PDT. Register at <https://www1.gotomeeting.com/register/888434545>.

About MANAGEtoWIN, Inc. (www.managetowin.com)
